"THE WORLD ACCORDING TO MONSANTO"

directed by independent filmmaker Marie-Monique Robin

<http://wideeyecinema.com/?p=105>

*On March 11 a new documentary was aired on French television. It is a documentary **most Americans will never see**, explaining how the gigantic biotech corporation Monsanto is threatening to destroy the agricultural biodiversity which has served mankind for thousands of years.*

Sources: Vanity Fair May 2008

A new movie has dealt yet another severe blow to the credibility of US based Monsanto, one of the biggest chemical companies in the world and the provider of the seed technology for 90 percent of the world's genetically engineered (GE) crops. The French documentary, called "The world according to Monsanto" and directed by independent filmmaker Marie-Monique Robin, paints a grim picture of a company with a long track record of environmental crimes and health scandals.

"Workers Comp, The Destruction Of CAL/OSHA/EPA And The Case Of David Bell"

Hosted by Steve Zeltzer of "Labor On The Job"

<http://video.google.com/videoplay?docid=-8772395089110184693>

"Labor On The Job" focuses on the case of Agraquest biotech worker David Bell. Bell who worked at the Davis, CA biotech laboratory owned by former Monsanto Scientist Pam Marrone was infected with fungus and bacteria while working.

The corruption and breakdown of the workers compensation system is connected to the deregulation of workers compensation and the elimination of all medical doctors at CAL/OSHA. Joining the show is his mother Sandi Trend, the last CAL/OSHA doctor Larry Rose and author of "Death On The Job" Daniel Berman.

"Labor on the Job" is the longest running labor cable show in the United States since 1983. It is produced and programmed by the Labor Video Project in San Francisco.
